Thank you David and Donn. I appreciate the opportunity to provide input.

First, I would like to see all of the CAC members receive the information at the same time. I understand funds may be limited for EPA officials to travel to Houston so perhaps the morning the proposal is released, the EPA could host a CAC meeting in coordination with Harris County so that the local CAC members can gather at HCPCS to hear the remedy and ask questions if desired. As the messengers here on the ground, I see this as an effective way for us to clearly understand the proposal and relay the necessary agencies and communities.

The day the proposal is released, mailers should be sent out to everyone on the mailing list to inform them of the proposed remedy and public comment process/time period. Additionally, a press release would be fitting to help reach a larger audience.

Public meeting: In order to give us time to digest the proposal, it would be reasonable to host the public meeting 1 to 2 weeks following the proposal's release. The meeting information should also be shared with media outlets, especially the local newspapers.

Over the years, we have fine tuned our outreach methods and have found phone calls and signs throughout the community to be most efficient. Our primary methods of outreach are email blasts, social media posts, phone calls, door to door canvassing, and signs throughout the community. I am happy to allocate resources to distribute accurate information and meeting details.

Several of the outreach methods above have been used in the past and we certainly appreciate the EPA's efforts.

Thank you,

Jackie Young

Subject: SJRWP Proposal

Hi Gary and Donn,

As you both know, we are patiently awaiting the remedy proposal for the Waste Pits. Can you please inform me of the outreach plan for the proposal- will an email be sent out to

CAC? Will the EPA send out a press release? Will telephone calls be made? Will mailers be sent to the mailing list? Will a date for the public meeting also be released with the proposal?

I want to make sure that however the remedy proposal is made, we receive the information as soon as it is released.

Sincerely thankful that we are close to the proposal,

Jackie Young
